Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: USC 112/1 and 112/2 were discussed, amendment will be made to overcome 112 rejections. Mr. Peret indicated that US '358 does not teach container that has an compartment holding the three elements of the system as shown by figures 1 and 6. Mr. Peret indicated that the container is the novel element of the present invention as it makes it convenient to the consumer to buy the three elements in one box. The examiner indicated that claim 40 does not recite container having one compartment, and the holder disclosed by the prior art reads on the container. Mr. Peret will amend the claims to recite figure 1 and 6 that applicant believes is distinct from the prior art. The examiner indicated that patentability will be determined upon filing the response .
